

### Day 3 - Monday 21st July - Victoria Falls

The team's first major challenge today was navigating the 692 metre drop to the 'boiling point', the first major rapids underneath Victoria falls. With difficult terrain, uneven steps and baboon families as obstacles, we were really required to pull together as a team - and managed with great success!

The views from the bottom of swirling rapids, stunning rainbows and the Niagara Falls Bridge rejuvenated us ready for the even more challenging haul back up! After a brief lunch stop, at which Nigel was conned by the local baboons into sacrificing his

lunch, we were off to see the Falls from the top! The volume of water was impressive; soon we were all more than a little damp from the spray! Jamie and Jack had to wring out their t-shirts before getting back on the bus...

We dried off at the local market where we tried out our bargaining skills with the local vendors, who were very impressed to hear that Richard, Jamie, Sarah and Iain were Scottish and were keen to know if they were related to David Livingstone!

Back at Fawlty Towers, we had time for a quick swim before dinner and preparing ourselves for tomorrow's rafting adventure!

We have had a really amazing day with JOLters overcoming tough challenges and our first daily awards were tough decisions! Toby was nominated as our first 'star of the day' for his resilience and achievement in conquering obstacles throughout the day.
